

7 June 06

Present at meeting

Lee – KE7EYX

Mark – KE7ICZ

Bob – W7AYH

Brent – KC0FUP

Mike – KE7AZF

Steve – WA2SMS

Tate - KC7ZRU

Meeting room moved due to Explorers meeting in the EOC

NG7T and KC7MJI missed meeting due to doors being locked – we never heard them call.

Mark did give us, via the radios, a report of the prize winners for the 2006 hamfest.

Brent shared reception of letter from the Wyoming secretary of state requesting filing and payment of fees for our Non-profit status updates. Was moved, seconded and unanimously passed to have Brent, KC0FUP do whatever he needs to in a timely fashion to get this all paid and filed by June 1st, 2006. He's working on makeup time now.

Reading of the past meeting minutes was skipped to save time

Treasure's report was skipped to save time since Brent was feverishly working the paperwork.

Thanks to Dave, K7YE, the KD7AGA-5 digipeater on Copper Mnt will be operational again by this time tomorrow.

Brent talked about all food arrangements

Club buys hot dogs & burgers – people asked to bring a dish.

Mark, Tate and Brent will work to ensure we have coffee.

Moved seconded and unanimously passed – public and visible areas of field day will be 'dry'. No alcoholic beverages. If you want such – great. Enjoy them in your own tent/space/vehicle. Reason: we're wanting to ensure we put our best, public face forward.

Tate talked about antennas and traps

Brent demonstrated using the MFJ analyser as a dip meter and getting their coils for field day close to right.
