Minutes read and accepted as read

Treasurer's Balance read, bills are paid up.

Old business:

Field Day was a BLAST!! Great time had by all, Mike really enjoyed working 6m on Sunday.

Positive comments on the Xlog logging software used on the club's PC at Field Day. More talk about other software, ideas and dreams. Special Tate's idea for a web based logging system.

No further old business, but Mike did mention some OLD, old business that will be brought again later when there are more members in attendance. (Brent and his incorporation project).

Talked about Hamfest and inclusion of full family participation, events and locations. Encourage everyone to note ideas, desires, wishes and concepts for further discussion later on.

New business:

14 July – 0900 meet at the .235 site to update the repeater messages, clock (time) and what not.

Discussed having Mike and/or Steve monitor 145.235 and the repeater input for who may be doing the packet bursts on the repeater.

Meeting closed at: 2042
