

5 September 2007

Meeting called to order at: 7:42pm by Mike – KE7AZG

Present:

KC7ZRU - Tate

KE7AZG - Mike

WA2SMS - Steve

KC0FUP – Brent

Introductions skipped since we all know each other already.

Treasurer's report:

Mike has need of another check and the power bill is due.

Packet bursts on .235 have been found and fixed, 'nuff said.

Hamfest:

We need to open up a hamfest account. LeeAnne has seed money – but the funds do need to be kept separate.

Contact Rev for getting rooms, information on who's name to get the seed money account in.

Mike has volunteered to start out as coordinator for hamfest planning. We'll see how long it lasts. He expects good participation from everyone.

Sunday, 9 Sept – plan to meet at the EOC at 1300 local to try and work the Pentagon special event station. After, we'll go out to the .235 site and reset the clock and messages.

New business:

Brent will order up from Ricky (Rad Com) a x-needle power meter for the EOC rig. (approved for \$200.00)

Mike would like to test the waters on having some banners made up. Brent will explore a sign shop he knows up for some prices and ideas. Get back to us later. Talk'n about 2 signs that may be vehicle mountable, table skirts – combined duty idea.

Mike will talk to Stu about demo in the EOC radio room. Next Saturday Tate plans to start building his own new setup – sort of as a trial run for the EOC's tables.
